

No child should go to school hungry but it happens every day in Canada

How it works:
We provide backpacks filled with food for students to take home each Friday. Students return to school on Monday with empty backpacks, ready to learn.

\$100 feeds a child on weekends for the full year

1.1 million children in Canada experience food insecurity

HUNGER DOESN'T TAKE WEEKENDS OFF

Our goal is to be in every province, feeding hungry children on weekends

"I used to live in a homeless shelter and the food there was garbage. This food program here, has helped me a bunch. It was also a motivation to come to school."
